

# JOUN ABBAS

React Developer

## PERSONAL DETAILS

jounabbas.react.js, 03153357007  
Date of birth: December 15, 2005  
Nationality: Pakistani

## PROFILE

### ABOUT ME

Joun is a skilled React developer with a passion for crafting dynamic and user-friendly web applications. With expertise in JavaScript, HTML, CSS, and React.js, Joun excels at building interactive interfaces that engage users and deliver seamless experiences. Joun is dedicated to staying updated on the latest trends and best practices in front-end development, ensuring that projects are not only visually appealing but also performant and accessible. With a collaborative mindset and a commitment to excellence, Joun thrives in fast-paced environments, contributing to the success of projects by leveraging their creativity and technical proficiency.

## EDUCATION

**BSSE (Bachelor's Of Software Engineering)**  
GCUFLC, LAYYAH

Aug 2022 - Present

**Intermediate**  
Zakriya Higher School Layyah; layyah; Pakistan, LAYYAH

Mar 2019 - Jun 2021

## EMPLOYMENT

**React Developer**  
Jabir Sons, City: Layyah: Pakistan

Jul 2022 - Present

A React developer specializes in using React.js, a popular JavaScript library for building user interfaces. They leverage React's component-based architecture to create interactive and dynamic web applications efficiently. React developers are proficient in JavaScript, HTML, CSS, and often work with related technologies such as Redux for state management and React Router for routing. They collaborate closely with designers and backend developers to implement front-end solutions that meet user requirements and ensure optimal performance and scalability. With their expertise in React, these developers play a key role in crafting engaging and responsive user experiences for websites and web applications.
